DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/27/2006 has been entered.

Allowable Subject Matter

2. Claims 1 – 20, renumbered as 1 – 18 are allowed over the prior art of the records.

3. The following is an examiner's statement of reasons for allowance: the prior art of the record fails to anticipate or rendered obvious the limitations "a draw frame for drafting a sliver running there-through, comprising; (a) a drafting unit comprising a plurality of roll assemblies spaced from one another in a direction of sliver advance; one of the roll assemblies being an output roll assembly situated at a downstream end of the drafting unit as viewed in the direction of sliver advance; (b) a sliver guide disposed downstream of the output roll assembly; the sliver guide having an inlet opening and an outlet opening; (c) a sliver trumpet disposed downstream of the sliver guide; the sliver passing through the sliver guide and the sliver trumpet; (d) an electronic camera arranged to capture images of the sliver at a location situated downstream of the output

roll assembly and upstream of the sliver trumpet; (e) an electronic image evaluating unit connected to the camera for receiving image signals therefrom; (f) an electronic machine control device connected to the electronic image evaluating unit; and (g) a closed circuit, including the electronic machine control device and the electronic image evaluating unit, wherein the electronic machine control device is adapted to adjust and optimize at least one of speed and friction parameters of at least one of the plurality of roll assemblies in response to results of the electronic image evaluating unit via the closed circuit" as claimed in amended independent claim 1.

Claims 2 – 18 are dependent to allowable independent claim 1, therefore these claims as a whole consider allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
